Airedale Terriers were developed to hunt other animals. Many Airedales are dominant or aggressive toward other dogs of the same sex. Many have strong "prey instincts" to chase and seize cats and other fleeing creatures. You need to control this breed around other animals until you find out whether you have an individual with a strong prey instinct.

As a medium-sized breed, Airedale Terrier puppy development typically lasts 14-16 months from birth to full maturity. Physically, Airedale puppies grow swiftly for the first 7-8 months, then those growth rates slow somewhat while the adolescent Airedale "fills out" by gaining muscle mass and fat; an Airedale Terrier is normally at or near its full adult size by 14 months of age.
