Suffering a head separation can do more than end a hunting trip, which it does very well; it can also damage the rifle by allowing high-pressure gas to cut the chamber making extraction more difficult. The cause is almost always old, well-used brass. In the case of our friend, this was his second trip into our shop for his .270 Winchester this year.

Initially, dealing with such customers was a difficult task but with time, I learned how to handle them," shares Robin Luo of Rochehandle. He continues, "the most effective tip that has helped me to date is to develop thick skin. That is, to let go of fear. I started viewing difficult customers as a new challenge rather than a condemnation.
